EverPlast

OUR COMPANY

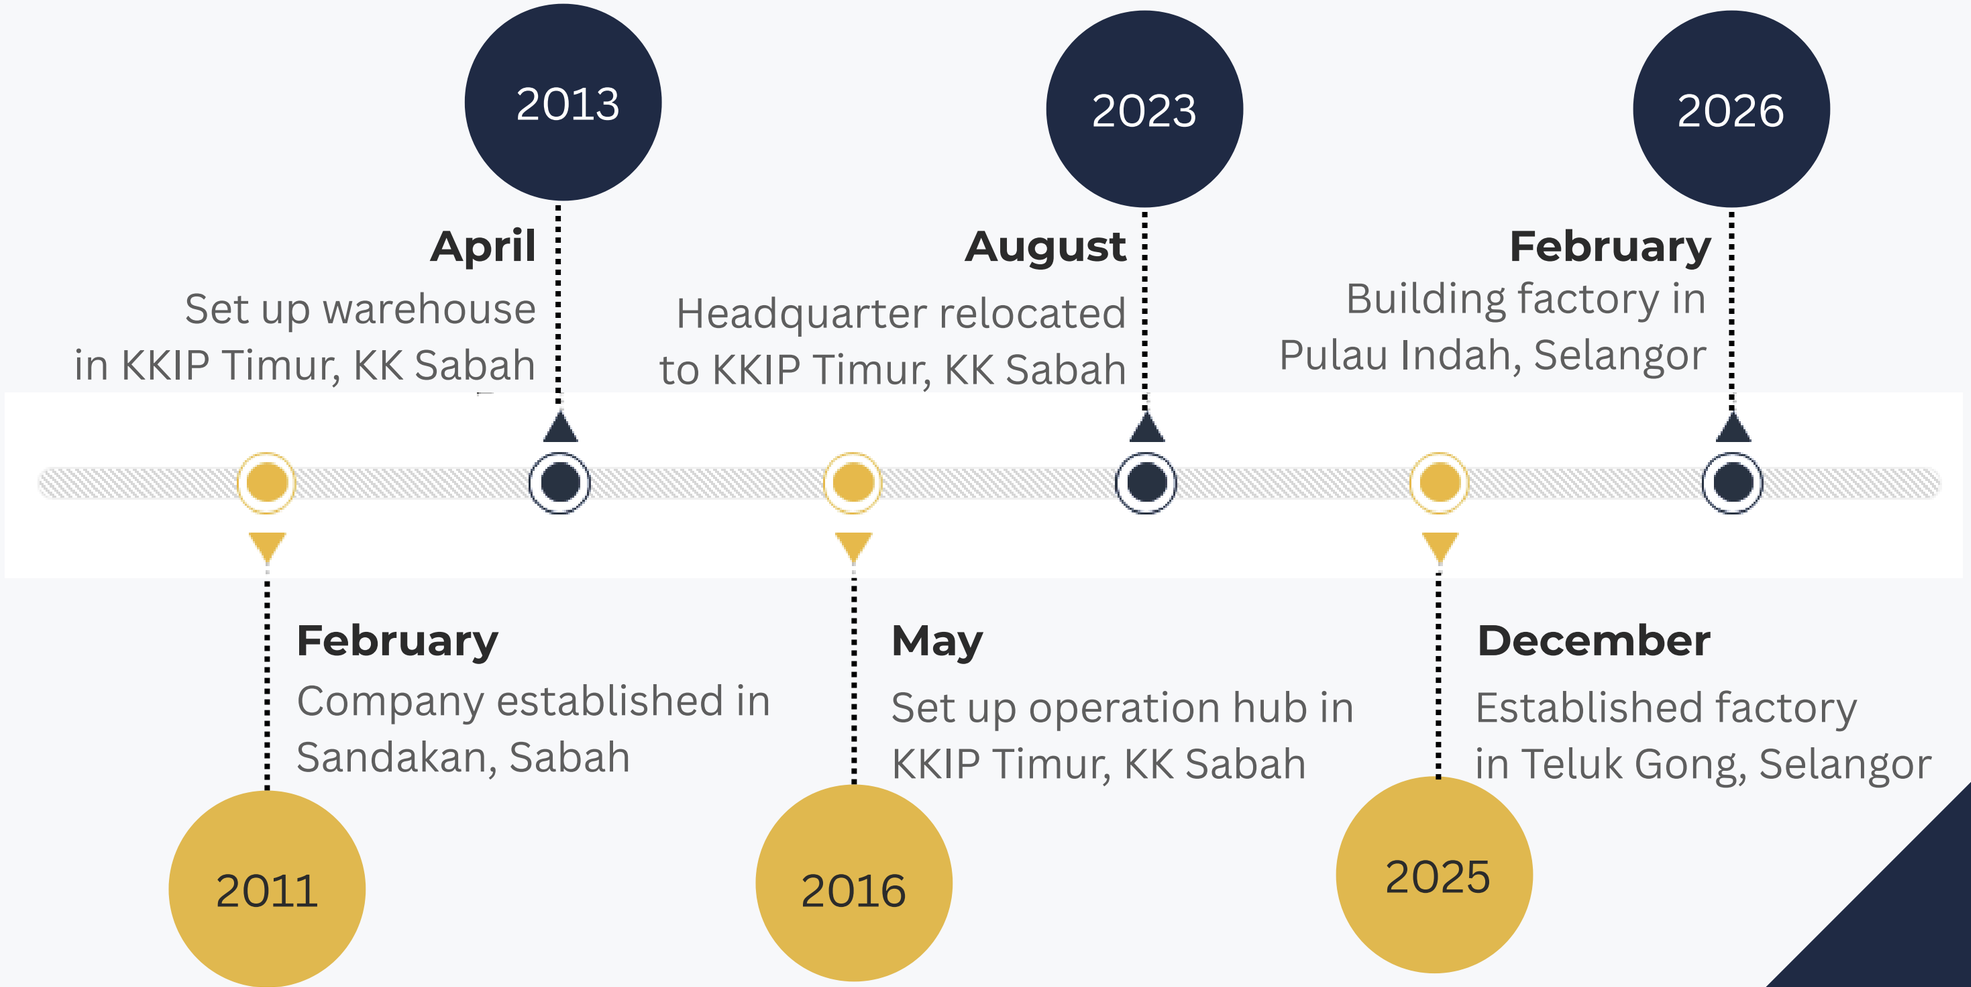

Everplast Sdn Bhd, established since 2011 is a Malaysian manufacturer specializing in PVC roof gutter systems and rainwater drainage solutions. Everplast began its operations in Sandakan, Sabah where it was among the early pioneers to introduce modern gutter manufacturing supported by foreign technology, contributing to local industrial growth and employment opportunities.

As parts of its strategic growth, **Everplast** expanded it presence to Kota Kinabalu in 2016, strengthening its service coverage across Sabah. Continuing its nationwide expansion, the company established operations in Teluk Gong, Klang in 2025 and is currently developing a new manufacturing plant in Pulau Indah, Selangor to further enhance production capacity and support long term growth in Peninsular Malaysia.

OUR TIMELINE

EverPlast

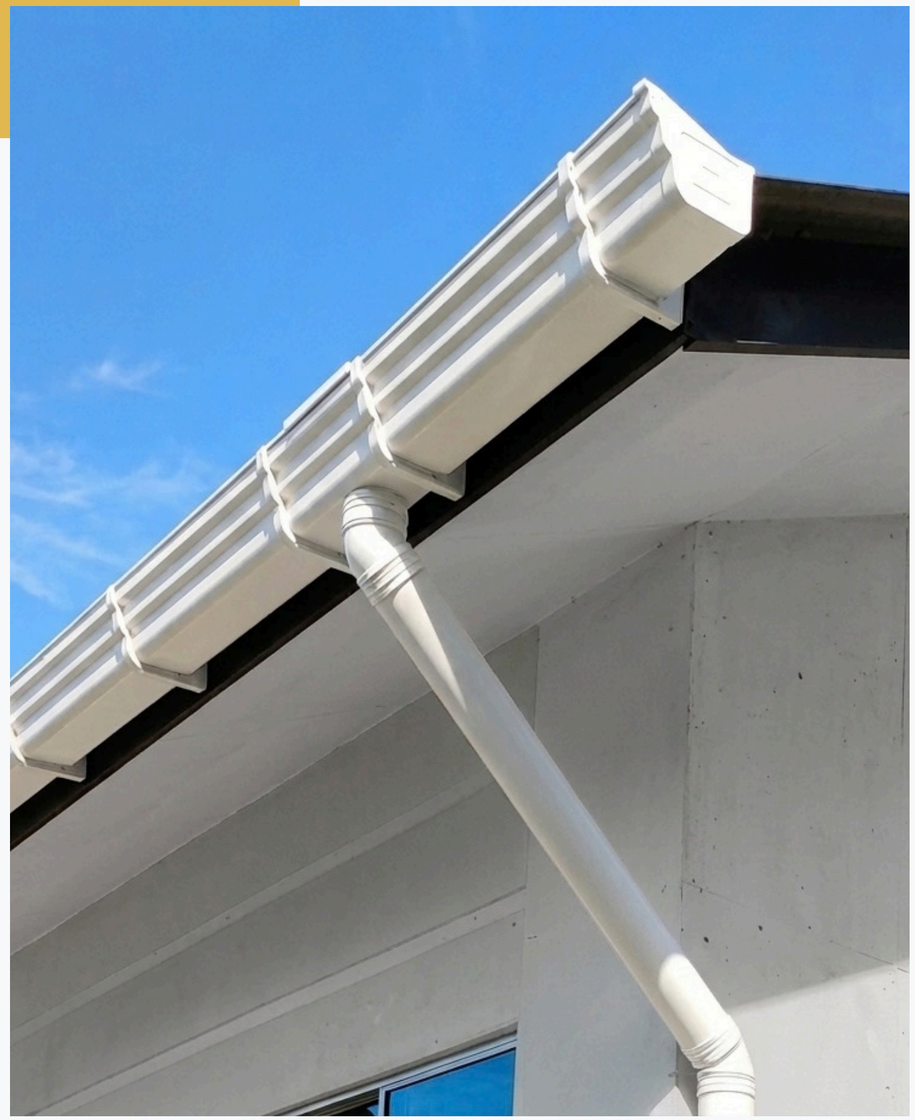

EverPlast

OUR VISION

To become a leading PVC roof gutter manufacturer in Malaysia and the regional market, recognized for quality, inovation and reliable rainwater management solutions

OUR MISSION

Mission

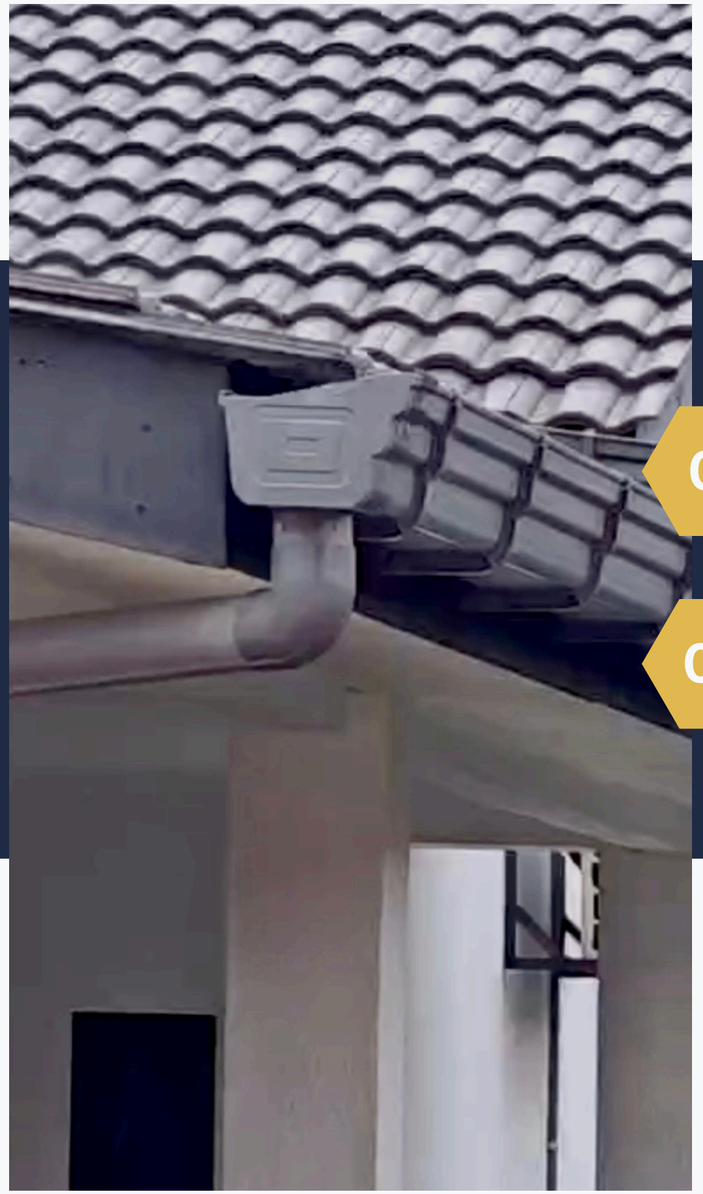

01 Manufacturing high quality PVC gutter systems

02 Provide durable rainwater drainage solutions

03 Build strong partnerships with contractors and distributors

04 Continuously improve through inovation and technology

EverPlast

WHY CHOOSE US

01 Proprietary Product Design

02 Durable PVC Material Quality

03 Proven Industry Exeperience

04 Commitment to Quality and Continuous Improvement

Everplast gutter system is manufactured from a special formulated UPVC material through research and testing which allow the gutters to have long-lasting lifetime with minimum maintenance. The formulation used has been designed for high impact performance and excellent stability against harsh climatic conditions.

7 YRS PRODUCT WARRANTY

ROYAL SERIES

U-PVC RAINGUTTER R220

OUR PRODUCT

Everplast is proud to introduce its unique design of the **EVERPLAST ROYAL SERIES UPVC GUTTER SYSTEM**. The unique design of the gutter profile has a large water capacity to prevent water from overflow. This also ensures that it copes better with sudden downpours, as well as decreasing the likelihood of leaf and sediment build-up.

OUR ACCESSORIES

EverPlast

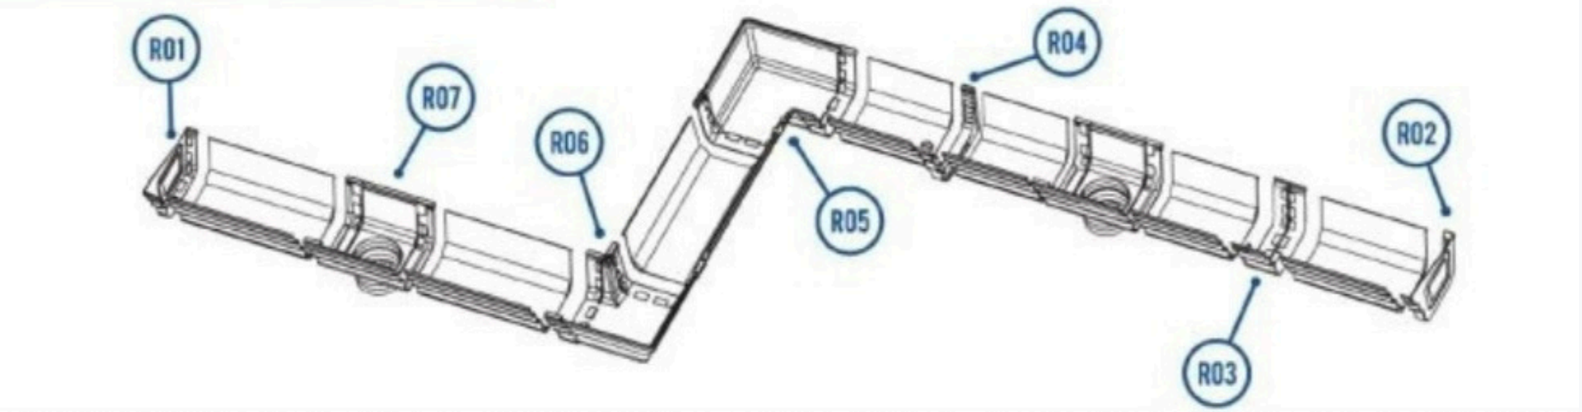

01 All gutters and accessories available in white and grey colour.

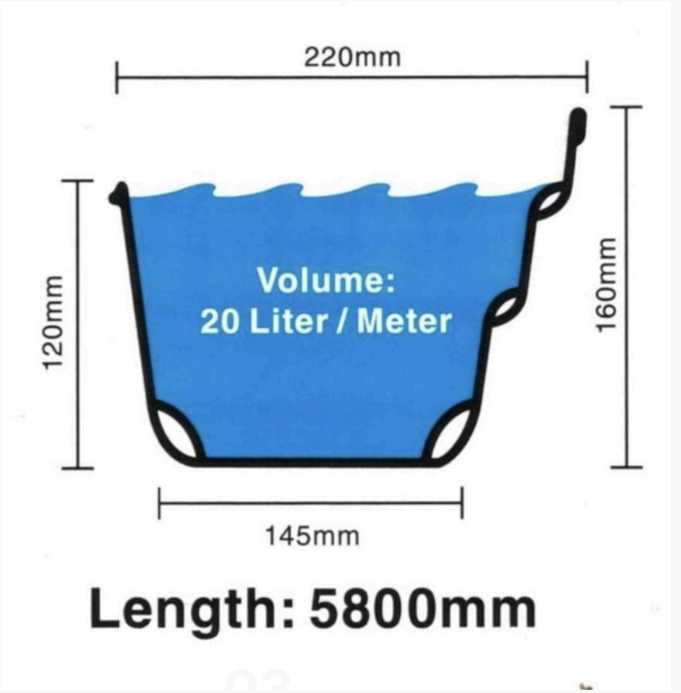

02 Can be painted easily to complement any colour scheme.

EverPlast

GUTTER PROFILE

Gutter Connection

Benefits

01 Corosion free material

02 Large water capacity

03 Special formulated material with UV resistant

04 Easy flow design

05 Light weight, easy to install

06 No expensive tooling required for installation

07 Gutter profile with high front end, helps to cover untidy roof lines

08 Large water capacity (Volume : 20 Litre/meter)

OUR COMMITMENT

Everplast Sdn Bhd is committed to delivering high-quality PVC gutter systems that combine durability, efficiency and value.

We aim to build long-term partnerships across Malaysia by providing reliable products, competitive pricing and consistent supply support.

By maintaining strict quality standards and strong customer relationships, **EVERPLAST** aims to contribute to better rainwater management and long lasting building infrastructure.
